

Teacher's Note: This lesson was developed as an extension to the Level A speaking lesson 'Occupations'. Ask learners to observe people working in various places they go to. Ask them to come to school with a list (Homework 1) of those they may have encountered within their day in a variety of places.

Pass out Homework 2A and 2B, pictures with written job titles, for learners to read at home. Students should study the new vocabulary at home by reading and memorizing Handout 2A. They can also quiz themselves by filling in the occupations under the pictures on Handout 2B.

READ THE JOB TITLES.
